Foreword

The National Council for Curriculum and Assessment (NaCCA), mandated to develop curriculum and supplementary materials for pre-tertiary institutions, has incorporated global citizenship as one of the six core competencies to be cultivated in learners from kindergarten to senior high schools. This “GCED Training Guide”, serves facilitators in the training of teachers in effectively implementing the curriculum. Its purpose is to guide facilitators to assist primary four to six teachers to integrate global citizenship skills and values into their daily teaching and learning activities.

This training guide is the result of a collaborative effort involving the Ministry of Education (MoE) in Ghana, the National Council for Curriculum and Assessment (NaCCA) and the Asia-Pacific Centre of Education for International Understanding (APCEIU) under the auspices of UNESCO. This collaboration aims to promote Global Citizenship Education (GCED) in Ghanaian schools through the Global Citizenship Education Curriculum Development and Integration (CDI) Project (2022-2024).

The training guide is based on the Ghana “Teacher Resource Pack on GCED Integration into Instruction for Primary Four to Six Teachers” which draws inspiration from various international and national policy documents, including UNESCO’s Agenda 2030 Framework for Action, Ghana’s Education Sector Plan (2018-2030), the National Pre-Tertiary Education Curriculum Framework (NPECF, 2018), the National Pre-Tertiary Learning Assessment Framework (NPLAF, 2020), the Ghanaian national curriculum, UNESCO’s GCED topics and learning objectives, and global best practices.

It is important to emphasize that significant effort has been made to adapt international best practices to suit the specific needs and social context of Ghana. The activities and strategies in the guide are therefore structured to be adaptable to various contexts and backgrounds.

The training guide provides comprehensive training sessions on the GCED concepts and values, the Ghana GCED conceptual framework and the integration of GCED concept into teaching and learning which have been outlined in the “Teacher Resource Pack on GCED Integration into Instruction for Primary Four to Six Teachers”.

I hope that trainers will use it to achieve its intended objectives so that ultimately, we can nurture a generation of global citizens who are equipped to navigate complexity, embrace diversity and work collaboratively towards a more just and sustainable world.

Since 2016, the Asia-Pacific Centre of Education for International Understanding (APCEIU) under the auspices of UNESCO has been working on the ***Global Citizenship Education (GCED) Curriculum Development and Integration (CDI) Project*** with several countries in the Asia-Pacific region. This initiative aims to incorporate Global Citizenship Education (GCED) into national curricula and share it worldwide.

APCEIU expresses great pleasure in welcoming Ghana as a partner country for the 4th Round (2022-2024) of the GCED CDI Project. Ghana has been a proactive and passionate partner country in the GCED CDI Project, truly standing out as an excellent example in this initiative. Ghana's unique strengths and expertise have greatly contributed to the success of the project, fostering the development of educational resources for GCED.

We are especially pleased with the development of the ***Teacher Resource Pack on GCED Integration into Instruction*** and ***A Guide for Trainers on Global Citizenship Education Integration into Instruction***, which have been created with great care to empower the capacity of educators in Ghana. The five key GCED themes in Ghana—**Human Rights, Sustainability, Respect for Diversity, Conflict and Peacebuilding, and Globalization and Social Justice**—align with national values and culture. These are essential for nurturing a generation that respects human dignity, values sustainability, and works toward peace and equity in an interconnected world.

APCEIU extends its heartfelt appreciation to the **National Council for Curriculum and Assessment (NaCCA)**, with special recognition to Prof. Yayra Dzakadzie, the Director-General, and Mr. Matthew Owusu, the Deputy Director-General, for their outstanding leadership. We also recognize the invaluable supervision of Prof. Edward Appiah, the former Director-General. Our deepest gratitude goes to the members of the GCED Core Team, including Ms. Genevieve Mensah and Mr. Reginald Quartey, as well as the Material Development Team, whose dedication and expertise were vital in the creation of these two valuable resources.

We sincerely hope that the ***Teacher Resource Pack on GCED Integration into Instruction and A Guide for Trainers on Global Citizenship Education Integration into Instruction***, tailored to the Ghanaian context, will serve as effective tools and pedagogical guidelines for teachers and trainers to implement the GCED in their classrooms. We also hope that a broader range of stakeholders in Ghana, including government and education officials, will engage in the promotion and integration of GCED. Therefore, students will develop into inclusive and open-minded global citizens, equipped with practical and critical thinking skills, as well as a collaborative spirit. We look forward to Ghana's ongoing contributions to advancing GCED both nationally and globally.

Introduction

This training guide is intended for use by trainers who will conduct training for teachers on Global Citizenship Education (GCED). GCED aims to equip learners of all ages with those values, knowledge and skills that instill respect for human rights, social justice, diversity, gender equality and environmental sustainability, and that empower learners to be responsible global citizens. GCED gives learners the competencies and opportunities to realize their rights and obligations to promote a better world and future for all.

The training guide is designed to equip trainers with the skills and resources necessary to train teachers on GCED integration into instruction and to use the teacher Resource Pack. Teachers who go through the training sessions will not only become informed, empathetic and empowered to address pressing community, national and global challenges, but also empowered to train learners who are empathetic, confident and can act and respond proactively, consciously and responsibly to challenges at personal, local, national, regional and global levels.

Training Objectives

The objectives for the training are:

- To introduce GCED concepts to trainees.
- To equip participants with GCED pedagogical knowledge and skills
- To equip participants with the knowledge and skills to integrate GCED concepts into classroom activities.
- To promote networking among participants

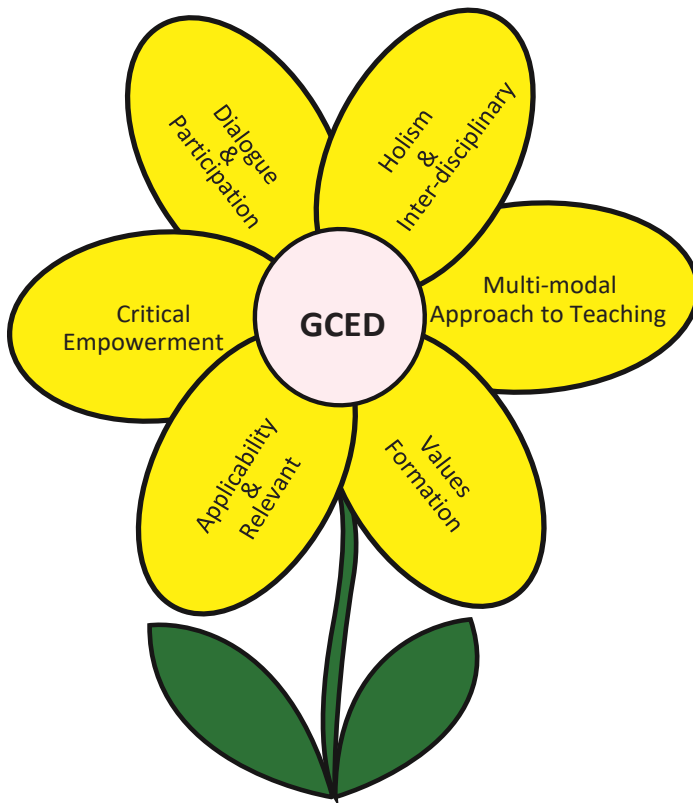

The Structure and Organisation of the Training Sessions

Each session includes an overview consisting of an overview of the content, session objectives, a three-part activity (made up of a starter, engagement and reflection) and suggested resources to support activities. The starter is an activity that prepares participants for the main engagement. The engagement session allows participants

to interact with the content of the session, and the reflection activity helps participants to reflect on the activities engaged in the session, their practice, skills and knowledge acquired and action(s) to be taken moving forward.

Pedagogical Strategies

The training guide adopts the pedagogical principles of GCED: including dialogue and participation, holism and inter-disciplinary, critical empowerment, applicability and relevance, values formation and multimodal approach to teaching.

Pedagogical Principles of GCED

Adapted, GCED onlinecampus (2019)

GCED training therefore requires participants’ active involvement and participation during the whole learning process. Hence, each session consists of presentations, discussions, activities, as well as reflection and constant dialogue with facilitators and among participants. The pedagogical strategies in this guide include the following:

Strategies	
• Watching Videos	• Quiz Game
• Group Work	• Empty Outlines
• Panel Discussions	• Three Part Interview
• Poster creation	• Role-play
• Presentation	• Scenario Challenge
• Experience Sharing	• Exit Ticket
• 100 Hundred Percent (100%) Me	• Café Style
• Reflective Wheel	• Snowballing
• Buzz Group Discussion	• Making my own flower
• Feel -O -Metre	

Tips for the Trainer

It is recommended that the trainer plays the role of a facilitator. A facilitator is someone who guides a group to achieve its objectives. A facilitator encourages participants to share ideas, opinions, and actively engage in workshop activities. The facilitator is expected to use technology and work collaboratively with co-facilitators and participants to achieve training objectives.

The Role of the Facilitator

The facilitator’s role includes the following.

A. Before training sessions

- Study the training guide and materials/resource to familiarise yourself with the training content. the workshop activities, time allocation, discussion and reflection questions that participants will engage in. Sufficient practice will help you handle unexpected situations that may occur during the training.
- Watch the videos and note the key points for discussions.

- Prepare or organise the necessary materials in advance.
- Read/study the reference materials introduced in this training guide for additional information.

B. At the start of training sessions

- Create a friendly learning environment through ‘ice breaking’ activities at the beginning of the workshop. You are encouraged to introduce each session with a simple warm up activity (1-2 minutes).
- Clearly communicate the objectives of the sessions to participants and post those expectations in an easily seen location to serve as a reminder.

C. During training sessions

- Encourage participants to share ideas, opinions and actively engage in workshop activities.
- Ensure the more verbose do not take over, and encourage contributions, particularly from those who may be less self-confident.
- Devise non-aggressive, friendly ways to deal with difficult participants. For example, those that are:
 - talkers
 - argumentative
 - refusing to engage with the workshop proceedings
 - passive due to a lack of motivation to learn
- Control conflict by stepping in if necessary to help participants learn how to deal with conflict positively or help them find areas of agreement; or by analysing what has caused the conflict so that participants can take a more objective, and therefore, less emotional view.
- From time to time, get the participants to summarise what has been discussed; perhaps pose a question or suggest to take the discussion forward.
- Display participants’ creations (writing or drawing) in the workshop venue to enhance the learning atmosphere.

- Assist ‘weaker’ participants by rephrasing their arguments for them so that these do not get lost just because they are not forcefully put across.
- Ensure individuals receive positive feedback from the group – either by acknowledging contributions that the group ignores, or by seeking positive contributions from others if a negative evaluation is given.
- Provide feedback on the group’s performance.
- Provide the information and resources for the group to function effectively.
- Talk less and allow participants the space to contribute.
- Ensure that the discussion is brought to a close when the topic has achieved its intended learning outcomes or at the end of the allotted time.
- Ensure that the whole group attains common goals, and derives its greatest satisfaction from having done this together.
- Make provision for participants who are late arrivals, or who are absent from sessions due to sickness etc. Devise ways to update them on what they have missed.
- Frequently remind participants to appreciate one another’s opinions and thoughts while maintaining a respectful attitude.

D. At the end of training sessions

- At the end of the training sessions/workshop, share materials such as presentations (facilitators’ and participants’ presentations) with participants. This will help participants to remember what they have learned and to proceed with their follow-up activities.
- Encourage networking: It is important to build a network to encourage participants to continue to work together after the completion of the workshop. Many participants will be interested in using what they have learned after the workshop. Sharing information and their experiences with other participants will create a synergy effect.

The session looked at the concept of GCED and its benefits to the learner, teacher, parent, community, nation and the world. We also learnt who a global citizen is, the three UNESCO domains, Ghana's GCED framework as well as the relationship that exist between GCED and the curriculum.

In conclusion, we have learnt that GCED promotes learning that nurtures greater consciousness of real-life issues. It offers learners relevant ideas and applicable ways to make a positive impact at the local level that can eventually influence the global level. For learners to become effective future agents of change, learning content should be based on real-life issues and hands-on experiences. Relevant knowledge and practical skills empower learners to apply what they have learned to their daily lives given the right opportunities. It is therefore important to be role models in the school, community, the nation and eventually the world.

Globalisation and Social Justice		

Appendix 2: Session 4 Scenarios

Session 4 Scenarios

Scenario 1: In a small town, a group of refugees has recently arrived seeking asylum from a neighbouring country where they faced persecution based on their ethnicity and political beliefs. However, upon their arrival, they are met with hostility and discrimination from some members of the local community who fear they will bring trouble.

Scenario 2: In a rapidly urbanising city, multinational corporations have set up factories that employ many migrant workers from impoverished rural areas. While these factories contribute to economic growth and job opportunities, they also exploit labour, paying low wages and providing poor working conditions.

Scenario 3: In a region torn by ethnic tensions and historical grievances, a series of violent clashes erupt between different ethnic groups, resulting in insecurity, loss of lives and widespread displacement.

Scenario 4: In a coastal town in the Central Region, residents depend heavily on fishing for their livelihoods. However, in recent years, overfishing and pollution have severely depleted marine resources, threatening the survival of the local fishing industry and the ecosystem. The fishermen resist adopting modern practices, fearing it will reduce their catch and income.

Scenario 5: Kofi, a new class 4 learner from a different country, joins Ms. Fati's Class. Kofi struggles to fit in due to differences in language, clothing, and customs. Some classmates tease and exclude him, while others show genuine curiosity and interest in learning about him.

Appendix 3: Session 6 Scenarios

Scenario 1: Building Empathy

Situation: A new learner, Joojo, joins the class mid-year. Joojo is quiet and tends to keep to himself. Some learners show curiosity and reach out to befriend Joojo, while others ignore him or even make fun of him.

(To the facilitator) **SEL Focus: Empathy and Respect**

Scenario: In this scenario, participants will be guided to develop empathy and respect for Joojo, fostering a welcoming and inclusive environment.

Discussion Questions:

1. What is the problem identified?
2. What would you do differently to make Joojo feel welcome and included?
3. How would you respond if you witnessed someone making fun of Joojo? What could you do to promote respect?
4. Why is it important to consider how Joojo might feel in this situation?
5. How can we create an inclusive classroom environment where everyone feels valued and respected?

Scenario 2: Conflict Resolution

Situation: Two friends, Sarah and Ama, have a disagreement during a group project. Their conflicting ideas lead to tension, and they are unable to find a compromise. The situation escalates, and they argue during class.

(To the facilitator) **SEL Focus: Conflict Resolution and Communication**

Scenario: In this scenario, participants will explore conflict resolution strategies and effective communication to help Sarah and Ama resolve their disagreement.

Discussion Questions:

1. What is the problem identified?
2. What are some possible reasons for the disagreement between Sarah and Ama?
3. How might Sarah and Ama effectively communicate their viewpoints and listen to each other's perspectives?
4. What strategies can they use to find a compromise and work together on their project?
5. How can we create a classroom environment that encourages open communication and respectful conflict resolution?

Scenario 3: Emotional Regulation

Situation: It's exam week and learners feel stressed and overwhelmed. Some learners are visibly anxious, while others express frustration. The high-stakes nature of the exams is affecting their ability to focus and perform well.

(To the facilitator) SEL Focus: Emotional Regulation and Stress Management

Scenario: In this scenario, participants will explore strategies for emotional regulation and stress management to help them cope with exam-related stress.

Discussion Questions:

1. What is the problem identified?
2. How do you think the learners' emotions are affecting their ability to concentrate and perform well in the exams?
3. What are some healthy ways to cope with stress and manage emotions during exam week?
4. How might learners support each other and create a supportive environment during this stressful time?
5. What role can teachers and parents play in helping learners manage stress and regulate their emotions effectively?

Scenario 4: Cognitive Development

Situation: Abiba is a 9-year-old learner in class 3. She comes from a supportive family and has shown a keen interest in learning. However, Abiba tends to struggle with attention and concentration in the classroom. She often gets easily distracted and has difficulty staying focused on tasks.

(To the facilitator) **SEL Focus: Attention and Concentration Skills**

Scenario: In this scenario, participants will explore strategies to support Abiba’s cognitive development and improve her attention and concentration skills.

Discussion Questions:

1. What is the problem identified?
2. How can teachers support, monitor and measure Abiba’s progress?
3. What support can her peers give to her?
4. How can collaboration between teachers and Abiba’s parents contribute to supporting her cognitive development at home and school?
5. Have you experienced such a challenge? How did you overcome it?

Appendix 6: SEL Competencies

SEL Competencies Self-Assessment and Reflection Tool for School Leaders, Teachers and Adults

This tool has been designed for self-reflection to guide your personal social-emotional growth process. It should not be used to evaluate performance. Use it to assess your personal strengths and think about how you can model those strengths when interacting with others. The tool also offers prompts that encourage thinking about strategies to promote growth across areas of social competence.

How to use this tool:

1. Read each statement and think of related specific situations, then rate yourself on the statement by marking the appropriate box (*rarely, sometimes, often*). If a statement does not apply to you, write N/A in the rating boxes.
2. When you finish, search for patterns of strengths and challenges. This information is for you, so answer accurately without judging responses as “good” or “not as good.”
 - A. After completing the reflection, reflect upon the results to draw conclusions about your progress:
 - The statements you marked as “often” could be indicators of personal strengths:
 - i. How do these strengths affect your interactions with your colleagues?
 - ii. Which of your strengths do you believe will help you live in harmony with your colleagues?
 - The statements you marked as “rarely” could be considered as current challenges:
 - i. How might enhancing this area benefit your interactions with students and/or peers?
 - B. Look at your responses, were there things that surprised you? Were there things that confirmed what you already knew about yourself?
 - i. List ways you can model your strengths for others and embed them throughout the school day.
 - ii. List ways you can improve on any challenges you currently face.
